

Web Developer & MERN Stack Fresher Job Guide

Companies that hire freshers, live job boards, and how to apply — 2026/2027 batch

■■ Important note on "2027 vacancies": No job board or company publishes a fixed list of specific 2027 openings today — postings open on a rolling basis, usually a few months before the role starts. What's listed below is real and current as of September 2026: companies actively hiring freshers/MERN-stack web developers, live job-board links, and campus drives that already accept 2026–2027 batch students. Bookmark the live links and check weekly, since these refresh often.

1. IT Services & Consulting Giants (mass fresher hiring)

These companies run large-scale fresher hiring drives (campus + off-campus) every year and regularly need web/full-stack developers for client projects. Typical entry packages: ■3.5–9.5 LPA.

Company	Fresher Hiring Route	Typical Roles
TCS	TCS NQT (National Qualifier Test)	System Engineer, Digital/Web Developer
Infosys	InfyTQ platform, campus drives	System Engineer, Digital Specialist
Wipro	Wipro Elite NTH, WILP	Project Engineer, Full Stack Developer
Accenture	Off-campus & campus drives	Associate Software Engineer, Web Developer
Cognizant	GenC / GenC Next / GenC Pro	Programmer Analyst
HCLTech	Off-campus mega drives	Graduate Engineer Trainee
Capgemini	Campus & off-campus hiring	Analyst / Full Stack Developer
Tech Mahindra	TechMBillion / NEXT drives	Associate Software Engineer
IBM	Early Professional Hires	Application Developer
LTIMindtree	Campus/off-campus drives	Graduate Engineer Trainee
Mphasis, Persistent, Zensar, Cognizant, Infosys	Off-campus drives	Trainee Software/Web Developer

2. Product & Global Tech Companies (fewer seats, higher pay)

These hire far fewer freshers but pay significantly more (■12 LPA+). Web/full-stack skills (React, Node.js) are relevant for their web platform and internal tools teams.

Google	Microsoft	Amazon
NVIDIA	Cisco	Oracle
Salesforce	Adobe	SAP Labs
Goldman Sachs	American Express	Qualcomm

3. Startups & Web/App Agencies (best fit for MERN skills specifically)

Startups and dedicated web-development agencies post the highest volume of MERN-stack-specific fresher/junior openings (0–2 years experience) on Internshala, Naukri, and Wellfound. Roles: Junior MERN Developer, Junior Full Stack Developer, Web Developer Trainee. Entry pay typically ₹2.5–6 LPA depending on city and company size. These postings open continuously through the year rather than in fixed annual batches, so live search is more useful than a static list.

4. Where to find live, current openings (check these weekly)

Platform	Best for	Link
Internshala	Fresher web dev & MERN jobs + internships	internshala.com/fresher-jobs/web-development-jobs
Indeed India	Fresher MERN stack jobs across India	in.indeed.com/q-fresher-mern-stack-developer-jobs.html
Naukri.com	Company-wise & location-wise fresher listings	naukri.com
Wellfound (AngelList)	Startup MERN/full-stack roles	wellfound.com/role/mern-stack-developer
LinkedIn Jobs	Direct company postings + alerts	linkedin.com/jobs
Freshershunt	Verified off-campus drives, updated weekly, 500+ freshers tracked	freshershunt.in

5. What to prepare as a MERN/web-dev fresher

- 2–3 solid full-stack projects on GitHub (auth, database, deployed live link) — this matters more than a degree pedigree for junior MERN roles.
- Core fundamentals: JavaScript (ES6+), REST APIs, MongoDB schema design, React hooks/state, Node/Express middleware.
- Deploy at least one project (Render, Vercel, Netlify, Railway) so recruiters can click and see it working.
- A short resume (1 page) with project links, not just coursework.
- Practice DSA basics (arrays, strings, recursion) — many IT-services drives (TCS NQT, Wipro NTH) test this alongside coding.
- Set daily job alerts on Internshala/Indeed/LinkedIn for 'MERN stack fresher' and 'junior web developer' — new postings appear constantly.

Compiled from live job-board data (Internshala, Indeed, Wellfound, Freshershunt, Hiredoor) as of September 2026. Company hiring needs and open roles change frequently — always verify on the official careers page before applying.
