PROFESSIONAL SUMMARY

Entry-level MERN Stack Developer with hands-on internship experience designing, building, and deploying full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in REST API development, JWT authentication, CRUD operations, and responsive UI design, with a track record of collaborating in agile teams to ship reliable features. Seeking a Junior Developer or Software Trainee role to contribute to production-grade products from day one.

CORE TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Database: MongoDB, MySQL

Tools & Deployment: Git, GitHub, VS Code, Postman, Vercel, Netlify, Render

INTERNSHIP EXPERIENCE

MERN Stack Developer Intern — VGI Sooprs Technology Pvt. Ltd.

Jan 2026 – Apr 2026

- Collaborated with a 4-developer team to build and maintain features for an internal web application using React.js, Node.js, Express.js, and MongoDB.
- Developed reusable React.js components and integrated REST APIs to handle data fetching, form submissions, and state management across multiple modules.
- Designed and tested Express.js endpoints using Postman, debugging API errors and improving response handling for smoother frontend-backend communication.
- Fixed UI bugs and improved page responsiveness across devices using Tailwind CSS and Bootstrap, reducing layout issues reported in testing.
- Used Git and GitHub for version control, raised pull requests, and incorporated feedback from senior developers during code reviews and agile stand-ups.

Bulk Outreach System | [GitHub](#)

- Built a MERN stack web application enabling users to upload Excel files with company details and send bulk messages across WhatsApp, Email, and SMS channels.
- Implemented Excel parsing, multi-channel messaging, delivery status tracking (Sent/Failed/Pending), and communication history logging.
- Designed a real-time statistics dashboard to track campaign success rates, with a responsive UI built using React and Tailwind CSS.

PROJECTS

QuizVerse | React.js, Node.js, Express.js, MongoDB, JWT

- Built a full-stack quiz platform supporting quiz creation, question management, and real-time score calculation.
- Implemented JWT authentication, protected routes, and RESTful APIs covering all CRUD operations.

[GitHub](#) | [Live Demo](#)

Food Delivery Web App | React.js, Node.js, Express.js, MongoDB

- Developed a full-stack food delivery platform with cart management, order placement, and a responsive UI.
- Designed REST APIs for menu, cart, and order modules; deployed on Vercel with optimized performance.
